TOWN OF ERIE 2021 DRINKING WATER QUALITY REPORT

FOR CALENDAR YEAR 2020

We are pleased to present to you this year's water quality report. Our constant goal is to provide you with a safe and dependable supply of drinking water. Contact **BRUCE CHAMEROY** at 303-926-2895 with any questions or for public participation opportunities that may affect water quality. Please see the water quality data from our wholesale system(s) (either attached or included in this report) for additional information about your drinking water.

Please contact us to learn more about what you can do to help protect your drinking water sources, any questions about the Drinking Water Quality Report, to learn about our system, or to attend scheduled public meetings.

We want you, our valued customers to be informed about the services we provide and the quality of water we deliver to you every day.

View the full report at:

TREATMENT FACTS

16.7 MGD

Water Treatment Capacity

9.1 MGD

Peak Day Production in July 2020

10,265

Water Taps

4.0 MGD

Average Daily Production in 2020

1.496 billion gallons

Water Treated in 2020

145,698 gallons

Water Treated Per Tap in 2020

ERIE WATER SOURCES

The Town of Erie's primary water source is the Colorado-Big Thompson Project, which originates on the western slope and is delivered via pipeline from Carter Lake in Berthoud to our Water Treatment Facility in Erie, and to our reservoirs for storage in Erie or Thomas Reservoir.

The Town also fills reservoirs via the South Boulder Canyon Ditch which originates from Gross Reservoir in Boulder. Lafayette and Lefthand are constant connections that are only used in emergency situations.

SOURCE	NORTHERN COLORADO PIPELINE CARTER LAKE	ERIE LAKE	THOMAS RESERVOIR	GROSS RESERVOIR S. BOULDER CANYON DITCH	PURCHASED FROM LAFAYETTE CO 0107473	PURCHASED FROM 107471 LEFTHAND SW
SOURCE TYPE	Intake	Intake	Intake	Intake	Consecutive Connection*	Consecutive Connection*
WATER TYPE	Surface Water	Surface Water	Surface Water	Surface Water	Surface Water	Surface Water

FREE CLEAN-UP & COMPOSTING

The Town's free landfill day in the Spring was a success!

Special thanks to Front Range Landfill for accepting 712 vouchers for free drop-off and collecting food donations in the process! To repeat that great work, the Town is hosting multiple collection events this fall and winter. For details visit:

erieco.gov/CleanUp

Sept. 11-19

A week of free landfill drop-off days

Sept. 11

Metal and electronic recycling, and shredding only

Nov. 6-Nov. 14

Leaf and pumpkin composting

Dec. 26 - Jan. 16

Tree composting

NATIONAL NIGHT OUT

The Police Popsicle Parade is returning in 2021! The Erie Police invite you to celebrate National Night Out.

This nationwide event traditionally includes cookouts with games and activities- the Erie event will meet at parks across Town as the Police and special guests parade to each location.

National Night Out aims to strengthen neighborhood spirit and police and community partnerships. Parade routes and special guest information will be posted on the webpage soon, but in the meantime, save the date –

Tuesday, Aug. 3.

We can't wait to see you!

SOLAWARE SIGNS

The Parks and Recreation Department recently installed a SOLAWARE sign at Thomas Reservoir. SOLAWARE signs inform community members of the effects of prolonged exposure to the sun.

Each sign has a solar panel that not only powers the unit, but indicates the UV index and the number of minutes until skin damage can be expected without protection.

When out enjoying the Colorado sun, it's important to know the risks and protect yourself.

FALL PROGRAM GUIDE

The Parks & Recreation Department's Fall Program Guide is packed with fun new activities including Beginner Disc Golf, Fishing 101, and Nerf Blaster Birthday Party packages as well as fall favorites such as the return of Boo! on Briggs Street!

Be sure to pick up your copy at the Erie Community Center or visit the website to download a digital copy.

ERIE COMMUNITY PARK

This summer, the Town of Erie is finalizing the Erie Community Park. The project is underway with a large amount of earthwork, drainage improvements, a shelter/restroom facility, walking trails, outdoor reading areas, basketball courts, sledding hill, fitness amenities, energy awareness-themed playground, and a bike pump track. Take a sneak peek of the progress by viewing the videos posted at:
